Professor D. Mishustin, Chief of the trade treaty  
department of the peoples commissariat for foreign trade  
of the Union of U.d.S.S.R.,

Kouibychev.

I have the honour to acknowledge the receipt of your telegram of February 6. I feel pleased to note that the peoples Commissariat for foreign trade of the Union of S.S.R. accepts our proposal concerning the meeting of delegates of both Governments in Teheran during March 1943 in order to solve problem of payments stop. We propose to provide for opening of negotiations around April 14, 1943 because Swiss delegation would have to leave Switzerland already at beginning of April. Composition of Swiss delegation approximately same as during last visit Moskow: President Dr. Ebrard, Dr. Aebi, Director Mürner and Mr. Bauer eventually joined with ~~Dr. Zehnder~~ and one or two experts of the Swiss machine industry in order to afford possibility of examining besides problem of payments other questions in relation to agreement of February 24, 1941 stop. I beg to let me know the composition of your delegation stop. I have to ask you once more to examine if Ankara could not be chosen as more convenient meeting place than Teheran.

Dr. Ebrard, Swiss Delegate for  
trade treaties.
