Dear Mr. President,

I wish to inform you that on 20th June 1976, a general election took place within the Turkish Federated State of Cyprus in accordance with the provisions of its constitution which had earlier been approved by the free-will of the Turkish People of Cyprus (on 8th June 1975) with an overwhelming majority. As a result of expression of the national will of our people a "de jure" Legislative Assembly, consisting of 40 members came into being and started functioning in the Northern part of Cyprus.

As Our Assembly is desirous of starting, developing and promoting close contact and cooperation with all the Assemblies of the world as a gesture of good will and understanding, I take this opportunity to request Your Excellency to inform the honourable members of Your Assembly of this matter and would appreciate very much if you be so kind as to favour us with your views on the ways and means of promoting such good cooperation and friendship.

The names and short curriculum vitae of our members are set forth in the attached document.

In conclusion, may I extend the best wishes of myself and all our members for the continued happiness, prosperity and well-being of Yourselves, the Government and the People of Switzerland.

(Osman N. Orek)  
 President of the  
 Legislative Assembly of the  
 Turkish Federated State of  
 Cyprus

enclosed: The names and short curriculum vitae of our members.
