*The American Field Service (AFS) to the Swiss Ambassador in Washington,
Alfred Zehnder¹*

Washington, D. C., 13 December 1965

I take pleasure in enclosing a copy of the American Field Service Roster of Students,² which includes the names of the young students from your country who have come to spend a year with us, and the names and addresses of the families with whom they are now living. I am enclosing an extra copy for your Educational or Cultural Officer.

We consider ourselves most fortunate to have these young representatives of your country with us and we are looking forward to having young students from the United States go to live with families in your country. We feel sure that this program is making a great contribution towards mutual understanding between the peoples of our two countries, and we hope see it develop increasingly in the years ahead.³

I am also enclosing an article from the *Christian Science Monitor* concerning our program and maps which show the extent of our efforts in countries all over the world. If there is any further information which you desire about the American Field Service,⁴ please do not hesitate to call upon me.
