# HARDWARE 10

Beslag og opbygning

# Velkommen

BIBUS SINDBY A/S er et solidt og velkonsolideret import- og handelsfirma, der har industrien og opbyggere som de to største kundegrupper. I de mere end 100 år firmaet har eksisteret, er en videnbank bygget op omkring indkøb og udvikling af kvalitetsprodukter primært til industrien. Sund fornuft og kvalitet er nøgleordene for al handling i virksomheden. Vi har været i konstant udvikling siden starten og har skabt en virksomhed, der er rustet til de stigende udfordringer og muligheder i industriens utallige nicher.

Adm. direktør Keld Hansen er i dag manden bag BIBUS SINDBY. I 2007 overtog BIBUS AG virksomheden efter den tidligere ejer og Sindby-familien, der siden 1918 har drevet firmaet over tre generationer. Virksomheden har løbende udviklet sig med kundeklientellet.

## Energioptimering

BIBUS SINDBY A/S iværksatte i september 2022 en proces, hvor vi gennemgik vores el- og gasforbrug. Med en ny investering i belysning samt en simpel adfærdsændring, lykkedes vi med at reducere vores elforbrug med over 40%. Vi offentliggør vores forbrug internt og på vores hjemmeside hver gang der er mærkbare ændringer, pt er vi fokuseret på at vise vores opstart med solceller og forbrugs optimering. Det gør vi for konstant at holde hinanden op på bedre forbrugsvaner. Vil du høre mere om vores tiltag, så er du altid velkommen til at kontakte os.

## We care about nature

Hos BIBUS SINDBY A/S har vi taget et aktivt valg for at mindske tab af biodiversiteten. Helt konkret har vi etableret et stort udendørsområde med vandhul, insekthoteller, sandbade, tørvestabler og frugttræer til bestøvning. Du kan følge udviklingen her eller gøre som vores medarbejdere - gå med på en tur rundt på de naturlige stier, kig dig omkring eller hold en pause ved bålstedet og lad sanserne få en anderledes oplevelse i en travl hverdag. Vores "have" er et fælles projekt, og derfor er det naturligt, at vores jubilarer udvælger det træ eller den busk, de ønsker at have stående i fremtiden. I dette forår (2024) planter vi de næste i rækken. Udadtill prøver vi at få vores leverandører til at tage aktivt stilling til, hvad lige netop de kan gøre. Alene kan vi ikke redde alverden - men sammen en god del. Vi vil altid gerne inspireres og udfordres, så har i nogen bud på, hvordan vi bliver endnu bedre så sig endelig til.

## Vores vigtigste ressource

Det er vores medarbejdere! Vi ønsker at dyrke det hele menneske. Det gør vi ved at interessere os for hinanden. Vi ønsker, at vores medarbejdere har et sundt familieliv, et aktivt fritidsliv og et meningsfyldt arbejdsliv. Kort sagt: Døgnet har 24 timer - så en tredjedel med fuld fokus på firmaet bør og skal være nok. Så er der også energi til at løfte i fælles flok, når det indimellem kræves. Vi ønsker at tiltrække alle slags mennesker og vi ønsker, at alle skal have lige rettigheder for at få en uddannelse og karriere, uanset etnicitet, religion, handicaps eller køn. For tiden gøres dette ved at vi støtter håndbold og fodbold spilleres mulighed for at kombinere elitesport og uddannelse. Firmaets børn samt psykisk handicappede. Det kan du læse mere på vores hjemmeside under sponsorater.

## Vores værdisæt med få ord

Hos BIBUS SINDBY A/S tager vi ordet ORDENTLIGHED meget alvorligt.

Vi ved at det er et ældre og lidt støvet ord, men det dækker over den måde, vi ser på verden.

- Vi ønsker kun at samarbejde med leverandører, der overholder gældende miljøregler
- Vi tager kraftigt afstand fra tvangs- og børnearbejde
- Vi aflægger jævnligt besøg hos vores leverandører, for at sikre og præge, at vi deler et fælles værdigrundlag
- Vi sikrer at de medarbejdere vi vælger følger og efterlever disse værdier

Vi prioriterer vores værdier højere end kortsigtet profitjagt, da det på den lange bane har vist sig, at udmønte i bedre resultater

*Du kan læse vores Code of Conduct for at få flere informationer om vores retningslinjer.*

## Vi finder en løsning

Som nævnt arbejder vores medarbejdere ofte tæt sammen med kunden for at finde den ideelle løsning.

Gennem deltagelse på messer over hele verden sikres det, at vi altid er opdateret på den nyeste viden og de nyeste produkter. På den måde opbygger vi et stort og globalt net af forbindelser til producenter.

Hvert år udvikles +400 nye produkter i samarbejde med kunderne, enten som eksklusive produkter eller som nye lagervarer hos os. Dette aftales fra projekt til projekt og kommer an på, hvad der er mest fordelagtigt for begge parter.

Vi ser frem til vores samarbejde!

Med venlig hilsen

**Keld Hansen**

## WE CARE ABOUT NATURE

Hos BIBUS SINDBY A/S har vi taget et aktivt valg for at mindske tab af biodiversiteten. Helt konkret har vi etableret et stort udendørsområde med vandhul, insekthoteller, sandbade, tørvestabler og frugttræer til bestøvning. Udertil prøver vi at få vores leverandører til at tage aktivt stilling til, hvad lige netop de kan gøre. Alene kan vi ikke redde alverden - men sammen en god del.

Vi vil altid gerne inspireres og udfordres, så har I nogle bud på, hvordan vi bliver endnu bedre, så sig endelig til.

At BIBUS SINDBY A/S we have taken an active choice to reduce biodiversity loss. Specifically, we have established a large outdoor area with waterholes, insect hotels, sand baths, peat bogs and fruit trees for pollination. Externally, we are trying to get our suppliers to take an active interest in what they can do. Alone we can't save the world - but together we can save a lot.

We always want to be inspired and challenged, so if you have any ideas on how we can improve, please let us know.

## Vejledning: højre og venstre model

### Instruction: right and left model

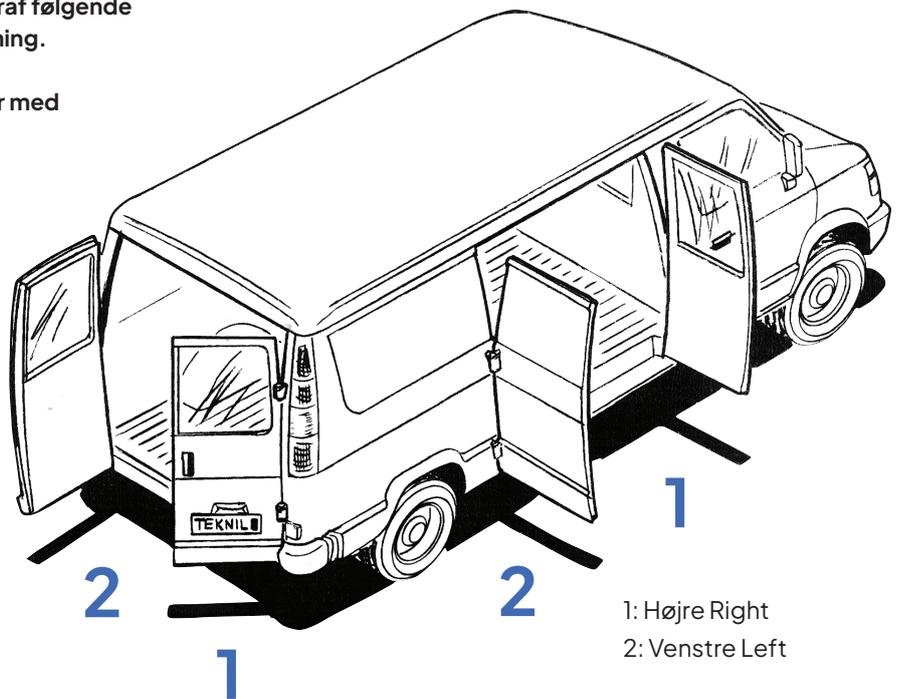

Mange af vores produkter tilbydes i både venstre og højre udgaver. For at undgå tvivlsspørgsmål og deraf følgende ombytning af varer, har vi lavet denne vejledning.

Her angives forskellige placeringsmuligheder med angivelse af, hvad vi mener er højre / venstre udgaver.

Many of our products are offered in models facing either left or right.

In order to avoid confusion and mix-up of the articles, we have made this illustration.

Here, you can see the different mounting possibilities to determine if you need a left or right facing model.

**BEMÆRK: udgangspunktet er altid hængslets placering**

# Energioptimering

BIBUS SINDBY A/S iværksatte i september 2022 en proces, hvor vi gennemgik vores el- og gasforbrug. Med en ny investering i belysning samt en simpel adfærd ændring, lykkedes vi med at reducere vores elforbrug med over 40%.

Vi offentliggør vores forbrug internt en gang i måneden for konstant at holde hinanden op på bedre forbrugsvaner. På vores hjemmeside kan du se hvordan vores energiforbrug har udviklet sig.

Vil du høre mere om vores tiltag, er du altid velkommen til at kontakte os.
