Other travel grant opportunities:

Funder	Description	Link to more information
University College London (UCL)	Conference and Research Funds	http://www.grad.ucl.ac.uk/funds/conference-and-research-funds.html
Axol Bioscience	Not yet known for 2019, applicants from anywhere except UCL	https://www.axolbio.com/ no info on grants
Fulbright travel grant	Applicants US citizens	https://www.cies.org/program/postdoc
GlaxoSmithKline Stiftung	<ul style="list-style-type: none"> scientific conference travel grants, applicant must work in Germany; conference must be among the best on this field of research applicant must be early career you should already have published something your boss must support your attendance no other means available 	https://www.gsk-stiftung.de/reise-stipendien/
Guarantorsofbrain	<p>Travel grants for conferences, applicants UK-based, any nationality</p> <p>These grants are intended mainly to support attendance at scientific meetings that relate directly to the applicant's research interests, and where they will be presenting their original work. Grants may also be awarded to support research visits to laboratories or clinical departments, where exceptional training opportunities are not available in the home institution and could not have been anticipated at the start of your post/PhD. The grant contributes to costs incurred by clinical and non-clinical neurologists, psychiatrists, neuroscientists and others for overseas visits or attendance at scientific meetings.</p> <p>Travel Grants are restricted to those in doctoral training (ie. PhD students, or UK based 3-year research MD) and post doctoral training (whether clinically qualified or not) and for work undertaken while based in the United Kingdom. A maximum of three separate awards may be available to each applicant, with not more than one award in any 12 months period.</p> <p>Amount: £400 for UK meetings, up to £600 for European meetings outside of the UK, and up to £1000 for meetings further afield</p>	https://guarantorsofbrain.org/grants/travel-grants/
PLOS	Call currently closed	https://www.plos.org/ecr-travel-awards
FNRS Freedom to Research	Reimbursement for travel costs, option to share expenses for co-organised events	https://www.frs-fnrs.be/en/financements/mobilite-fnrs

Charles Koch Foundation	Our travel grants for graduate students provide funding for travel in support of career development opportunities, such as presenting at a conference, conducting research for a publication, or attending a professional development workshop.	https://www.charleskochfoundation.org/apply-for-grants/graduate-student-grants/travel-grants/
eLife	eLife supports early-career researchers by helping ensure they receive exposure and recognition for their work, especially among leading scientists in their field. In this spirit, we are pleased to offer a travel grant programme whereby the early-stage researcher on an eLife paper may be funded to present their work at a meeting of their choice.	https://elifesciences.org/inside-elif/e028651c/travel-grants-more-early-career-authors-receive-funding-in-2019 Early career advisory group https://elifesciences.org/inside-elif/8cb37136/early-career-advisory-group-a-review-of-2018-2019
Bio-techne	Bio-Techne is proud to offer a monthly travel grant to the meeting of your choice in 2019! Apply by filling out the survey below and at the end of each month, Bio-Techne will select 1 recipient for a \$1000 travel grant to the conference of their choice. Proof of attendance is required, see terms and conditions . All applicant submissions remain eligible for each subsequent month through the end of 2019.	https://www.rndsystems.com/grants-scholarships/apply-now-receive-travel-grants-bio-techne
The Norwegian Research School in Neuroscience (NRSN)	The Norwegian Research School in Neuroscience (NRSN) offers individual international training grants for participation in theoretical or practical courses in neuroscience abroad, including workshops and summer schools, as well as for short training stays in research groups abroad. The aim of these grants is to allow our members to benefit from international expertise and training opportunities, and to expand their international networks.	https://www.ntnu.edu/nrsn/international-training-grant
Central European Initiative (CEI)	The Science and Technology Network funds seven research centers across Europe with the purpose of strengthening international collaboration. It provides funds for the organization of seminars, conferences, workshops, and training courses, and offers travel awards for young investigators to attend.	http://www.ceinet.org/node/67
European Brain and Behavior Society	Conducts research into the relationship between brain mechanisms and behavior and offers travel fellowships for PhD students.	http://ebbs-science.org/ https://ebbs-science.org/funding/ EBBS Sponsored International Lecturers
European Science Foundation	Funds research in multiple areas and is affiliated with multiple universities and institutes across Europe. Provides research project grants and travel awards.	http://www.esf.org/
Scientific Research Fund (FNRS)	Belgium Funds research in multiple areas. Provides funds for research training, projects, conferences, international travel, professional development, and scientific publications. Offers special funding for early and established career researchers, groups, postdoc, and PhD program grants.	https://www.frs-fnrs.be/en/
Alexander Von Humboldt Foundation	Germany Funds research in multiple areas. Offers fellowships and grants for academic study and travel awards. Funding is open to international applicants.	http://www.humboldt-foundation.de/web/about-us.html http://www.humboldt-foundation.de/web/sponsorship.html
Swiss National Science Foundation	Switzerland Funds research in multiple areas, offering research project grants, conference grants, equipment grants, publication grants, and international travel grants. Open to international researchers, so long as they are working in Switzerland.	http://www.snf.ch/en/funding/programmes/Pages/default.aspx

Biotechnology and Biological Sciences Research Council (BBSRC)	UK Provides research funding for biosciences within four broad areas and has extensive partnerships with international institutions. Offers grants for long- and short-term research and travel awards and provides for special programs for young investigators.	http://www.bbsrc.ac.uk/funding/funding-index.aspx
International Neuroinformatics Coordinating Facility, Norwegian Node (INCF)	Focuses on neuroinformatics and neuroscience. Funded by Norwegian Research Council. Funds small research projects, conference participation, and international workshop participation.	https://www.incf.org/network/nodes/norway
Sparrho early career researcher prize	Worldwide, PhD and postdocs, conference participation. 500 pounds.	http://grants.sparrho.com/index.html
International exchanges, Royal Society of Chemistry International Exchanges Award, Yusuf and Farida Hamied Foundation International Exchanges Award Royal Society	Scientists of any nationality <u>based in the UK</u> who want to stimulate collaborations with leading scientists overseas through either a one-off visit or bilateral travel, duration 3-months to 2 years	https://royalsociety.org/grants-schemes-awards/grants/international-exchanges/
Student Travel Award Cancer Research UK	PhD Student any nationality based in UK, conference participation Submissions till 28 February 2019	https://www.cancerresearchuk.org/funding-for-researchers/our-funding-schemes/bacrucuk-student-travel-awards
Research Travel Award Cancer Research UK	Various funding opportunities for early- and mid-career researchers, check website for deadlines	https://www.cancerresearchuk.org/funding-for-researchers/research-career-development-opportunities/funding-opportunities-for-early-career-researchers
Hellobio Travel Awards	<ul style="list-style-type: none"> • you need to be a current post-graduate • you must provide a detailed breakdown of what the money will be used for, and what funding (if any) you have already obtained. Things we are looking for are direct travel costs, or registration fees - not your beer supply for the week! • and finally - after you have submitted your application, we will need a short statement from your supervisor / PI to confirm your application. <p>Deadline for application every month.</p>	https://www.hellobio.com/blog/apply-for-our-travel-awards-its-easy.html
The Boehringer Ingelheim Fonds awards Travel Grants	short-term research stay or attend a practical course of up to 3 months Application: any time	https://www.bifonds.de/fellowships-grants/travel-grants.html
Winston Churchill Memorial Trust – Churchill Fellowships	UK citizen, for conference attendance. Applications: 16 May to 5pm on 17 September 2019. These are for research trips in 2020 and beyond.	https://www.wcmt.org.uk https://www.wcmt.org.uk/award-categories/healthcare-innovations-twenty-first-century
Tebu-bio innovative lab services & reagents	Your research project must be based on experimental methods involving biological and biochemical reactions with reagents such as antibodies, proteins, oligonucleotides or cells (eg. sequencing, cell-based assays, cell culture, ELISA, microscopy experiments...) You must work in a European life sciences laboratory Application deadlines 2019: <ul style="list-style-type: none"> • February 22nd • May 3rd • June 28th 	https://www.tebu-bio.com/cms/1081/Get_your_400EUR_tebu_bio_Travel_Grant.html

	<ul style="list-style-type: none"> ● October 4th - Applications are now open <p>€400.-</p>	
British society for Cell Biology - Honor Fell / Company of Biologists Travel Awards	<p>Register with the BSCB</p> <ul style="list-style-type: none"> ● in the early stages of their careers (students and postdocs) ● Applicants must have been a member for at least a year (or be a PhD student in their first year of study). ● Applications must be made at least one month in advance of the meeting for which support is requested. <p>Up to £400/500/750</p>	<p>https://bscb.org/competitions-awardsgrants/travel-bursaries/honor-fell-company-of-biologists-travel-awards/</p>
lifebit	<p>travel grants, of up to £500, to PhD & postdoc level bioinformaticians to attend a conference of their choice to present their work.</p>	<p>https://blog.lifebit.ai/2019/05/07/lifebit-travel-grant-award/?utm_campaign=lifebitblog</p>
Open bioinformatics foundation	<p>Does the event qualify? Does the event promote open source bioinformatics software development and open science in the biological research community? Events can include - but are not limited to - conferences, workshops, codefests, and hackathons. We give slight preference to OBF events and member projects. The event can occur anytime between the previous deadline and the subsequent deadline - i.e., you can apply for something you are planning to attend or have already attended.</p> <p>What is your participation? We look at both your role at the event, your past participation in the project that you are representing, and also your general history in open source development or open science. We give slight preference to participation in OBF events and member projects.</p> <p>Increasing diversity: Does your attendance increase diversity at the event? We understand increasing diversity as increasing participation from groups otherwise underrepresented in the community or at the event, including but not limited to underrepresented demographic groups, ethnic origins, career stages, and people with disabilities. We do not consider diversity of operating systems or text editors.</p> <p>Up to \$1.000.-</p> <p>Application Deadlines: April 15, August 15, December 15</p>	<p>https://www.open-bio.org https://github.com/OBF/obf-docs/blob/master/Travel_fellowships.md</p>
EMBO	<p>Applicants must be active researchers at any stage in their career with a minimum of one year of research experience at the PhD-student level, or the equivalent.</p> <p>EMBO Short-Term Fellowships are awarded for research exchanges between laboratories in EMBC Member States, Associated Member States or Cooperation Partners. EMBO Short-Term Fellowships are not awarded for exchanges between two laboratories within the same country.</p> <p>Duration: Short-Term Fellowships are intended for visits of 1 week (7 days) up to 3 months (90 days).</p> <p>The fellowships contribute towards travel costs and subsistence of the fellow but not of any dependents. The subsistence rate depends on the country being visited.</p>	<p>https://www.embo.org/funding-awards/fellowships/short-term-fellowships#eligibility</p>
Lundbeck Foundation – Lundbeckfonden Travel Stipends	<p>Lundbeckfonden places a high priority on active participation in focused meetings and conferences outside Denmark. Applications will only be accepted when sent before the event has taken place. They should include a recommendation from a senior scientist, as well as documentation that entries/abstracts have been received by the organizers of the meeting. Applications cannot be made for more than DKK 50.000,-</p> <p>Ph.D. students' travel expenses are included in the Ph.D. tuition fees. Consequently, applications</p>	<p>https://www.lundbeckfonden.com/en/grants/what-you-can-apply-for/</p>

	<p>for grants to cover Ph.D. students' travel expenses to conferences should justify this. Application: continuously</p>	
<p>eLife Early-Career Travel Grants</p>	<p>early-career authors who have had an abstract of high scientific merit already accepted for an oral presentation or a poster at their chosen meeting are invited to apply for the 2019 scheme. We especially welcome applications from researchers requiring international travel to their meeting of choice. Application deadlines for 2019 are at midnight on March 3, June 2, and September 1. You can apply for funding of up to \$1,000 to support your costs of travelling to and participating in a conference.</p>	<p>https://elifesciences.org/inside-elifesciences/f8281f87/early-career-travel-grants-applications-open-for-2019</p>
<p>Simons Foundation Fund - grants</p>	<p>The foundation awards grants for scientific visits, conference visits, and deserving activities such as the organisation of scientific meetings in the field of human genetics.</p> <p>Grants for conference visits and scientific visits are made available to PhD students and postdocs, as well as clinical genetics specialists in training (not for MSc students). The applicant must be in the temporary employment of a Dutch institute at the time of the subsidised conference visit / or scientific visit. Grants will not be awarded for activities that form part of a formal clinical genetics training programme, for thesis printing costs, for courses that are a compulsory part of your training, or similar activities. The maximum amounts awarded for conference visits are as follows: Within Europe: € 600 Outside Europe: € 800 Travel grants required for the first half of the year must be applied for before 31 December of the previous year. Applications for travel grants in the latter half of the year must have been received before 30 June.</p>	<p>https://cluster15.erasmusmc.nl/simonsfonds/grants.html</p>
<p>IBRO International Travel Grants 2020</p>	<p>foster neuroscience research, especially in less well-funded countries, by providing support to high-quality neuroscientists from diverse geographic and scientific areas (US/Canada Region excluded) who wish to participate at international neuroscience meetings taking place between January – June 2020. At least one letter of reference is required in order to be considered for this grant. Two is ideal. Up to € 1.800.- Application deadline: September 5, 2019</p>	<p>https://ibro.org/ibro-international-travel-grants-2020-january-june/</p>
<p>Royal Society of Biology – Travel grants</p>	<p>Travel Grants (Early Career MRSB) The Royal Society of Biology offers five grants of £500 to early career MRSB members worldwide each year. Applications should be for future biology-related projects abroad or future overseas conferences where the applicant is presenting a talk or poster. Applicants may use the award to attract additional funding but the Society will still expect prominent recognition. £500.- Grants are awarded for future travel only - for travel between 1st April 2019 and 31st March 2020.</p>	<p>https://www.rsb.org.uk/get-involved/grants/travel-grants/travel-grants-early-career</p>
<p>R&D Systems – bio techne – travel grants</p>	<p>Bio-Techne is proud to offer a monthly travel grant to the meeting of your choice in 2019! Apply by filling out the survey below and at the end of each month, Bio-Techne will select 1 recipient for a \$1000 travel grant to the conference of their choice. Proof of attendance is required, see terms and conditions. All applicant submissions remain eligible for each subsequent month through the end of 2019.</p>	<p>https://www.rndsystems.com/grants-scholarships/apply-now-receive-travel-grants-bio-techne</p>

	Application window open: January 1, 2019 – December 31, 2019

<p>Peter und Traudl Engelhorn Stiftung zur Förderung der Lebenswissenschaften</p>	<p>Studies of natural sciences, pharmacy or medicine with superior results Age limit: 34 years Execution of the project at a renowned research institution in Germany, Austria or Switzerland</p>	<p>https://engelhorn-stiftung.de/index.php/stipendium-bewerbung.php</p>
<p>Fritz Thyssen Stiftung</p>	<p>richtet sich an Wissenschaftler aus den Geistes- und Sozialwissenschaften sowie der Biomedizin. Das geplante Vorhaben sollte sachlich und zeitlich begrenzt sein. Each year apply by February 15 (for June election), by September 15 for February election).</p>	<p>https://www.fritz-thyssen-stiftung.de/foerderung/foerderarten/projektfoerderung/</p>
<p>Sapere Aude: DFF-Starting Grant Independent Research Fund Denmark</p>	<p>In order to promote the education of researchers and strengthen internationalisation, DFF offers the Sapere Aude (i.e. "dare to know") instrument. The objective of the initiative is to develop the qualifications and competencies of the best research talents, both nationally and internationally. Sapere Aude: DFF-Starting Grant is aimed at Danish as well as non-Danish researchers. You can apply for a Sapere Aude: DFF-Starting Grant of up to 4 years' duration and a maximum amount of DKK 4.3 million, excluding overhead. Sapere Aude: DFF-Starting Grant is aimed at providing excellent younger researchers, i.e. researchers who have</p>	<p>https://dff.dk/en/application/call-for-proposals-2019-uk.pdf</p> <p>and several other funding opportunities https://dff.dk/en/application/overview-of-instruments</p>

	<p>carried out top class research in their field, with the opportunity to develop and strengthen their research ideas. The instrument also aims at promoting the mobility internationally as well as nationally among research environments, and thereby to strengthen networks and careers.</p> <p>Sapere Aude: DFF-Starting Grants are targeted at top researchers who intend to gather a group of researchers and/or research students, to carry out a research project at a high, international level. Sapere Aude: DFF-Starting Grant also strengthens the possibility for excellent younger researchers to return to a Danish research institution after a research stay abroad.</p> <p>The Independent Research Fund Denmark expects that a Sapere Aude: DFF-Starting Grant prepares the grant recipient to apply for an ERC Starting Grant, Consolidator Grant or Advanced Grant, or a similar international programme.</p>	
The Branco Weiss Fellowship – Society in Science	<p>postdoc program. It awards young researchers around the world with a generous personal research grant, giving them the freedom to work on whatever topic they choose anywhere in the world, for up to five years.</p> <p>This research fellowship is designed to support postdoctoral researchers after their PhD and before their first faculty appointment. Those in current postdoctoral positions are also eligible. Ideally, fellows pursue unconventional projects in new areas of science, engineering and social sciences.</p> <p>The fellowship program was initiated and financed by the Swiss entrepreneur Dr. Branco Weiss, who passed away in October 2010. The program is based at the Swiss Federal Institute of Technology Zurich (ETH).</p> <p>start applying in October 2019 for the January 15, 2020 deadline</p>	https://brancoweissfellowship.org
Leopoldina Nationale Akademie der Wissenschaften Leopoldina Postdoc Scholarship	outstanding postdoctoral scientists in natural science or medicine in Germany, Austria, and Switzerland	https://www.leopoldina.org/en/de/funding/leopoldina-fellowship-programme/leopoldina-postdoc-scholarship/
Stipendium der Dr. Jost Henkel Stiftung	<p>Leistungen der Stiftung</p> <p>Das Dr. Jost Henkel Stipendium bietet unterschiedliche Fördermaßnahmen im Rahmen ihrer Stipendien an:</p> <ul style="list-style-type: none"> • monatliche Unterstützungszahlungen • Einmalzahlungen pro Semester für Studienmaterialien • einmalige Zuschüsse für Studienreisen und Praktika • zinsfreie Darlehen <p>Wer kann gefördert werden?</p> <p>Grundsätzlich können Studierende aller Fachrichtungen an staatlichen oder privaten Hochschulen gefördert werden; der Schwerpunkt liegt jedoch auf Wirtschafts- und Naturwissenschaften.</p> <p>Exzellente Studienleistungen bei Studierenden, die nicht über die nötigen finanziellen Ressourcen verfügen, sind Bedingung für eine Unterstützung.</p> <p>Neben der finanziellen Unterstützung umfasst eine Förderung durch das Dr.</p>	https://www.henkel.de/karriere/jobs-und-bewerbung/914540-914540

	<p>Jost Henkel Stipendium persönliche Beratung sowohl während des Studiums als auch nach Abschluss der Ausbildung. Außerdem hilft sie bei der Vermittlung von Praktika.</p> <p>Application any time</p>	
<p>Research grants Fondation Fyssen</p>	<p>Neurobiology: Neurobiological bases of cognitive processes, their embryonic and post-natal development, and their elementary mechanisms.</p> <p>Duration: 12 months</p> <p>Research grants are intended to support either French or foreign post-doctoral researchers, maximum age 35 years for the biological sciences and 40 years in the human sciences, on closing date.</p> <p>Application by September, 6th, 2019: online application forms October, 18th, 2019</p>	<p>http://www.fondationfyssen.fr/en/the-fundation/neurobiology/ http://www.fondationfyssen.fr/en/research-grants/goals-eligibility-conditions/</p>
<p>Gemeinschaft für studentischen Austausch in Mittel- und Osteuropa</p>	<p>German doctoral researchers up to 31 years of age who plan a research stay abroad in Poland or the Czech Republic</p>	<p>https://www.gfps.org/stipendien/bewerbung/</p>
<p>German-Israeli Foundation for Scientific Research and Development (GIF)</p>	<p>encourage young scientists and help them establish first contacts with potential counterparts in Israel or Germany.</p> <p>The program supports researchers within 8 years after completing their Ph.D., M.D., or an equivalent degree (at the starting date of the Grant), and will give these scientists an opportunity to present themselves and their research activities in the other country.</p> <p>For this purpose, travel to the partner country during the 12 months' Grant period is mandatory. The mandatory minimum duration of visit is 7 full working days. An extended visit of 2 weeks is recommended.</p> <p>average budget of EUR 20,000 per GIF Young Scientists' grant.</p>	<p>http://www.gif.org.il/pages/gif-programs/ysp.aspx</p>
<p>HUMAN FRONTIER SCIENCE PROGRAM Postdoctoral Fellowships Long-tern fellowship or Cross-disciplinary fellowships</p>	<p>HFSPo attaches the highest importance to novelty, scientific merit, internationality, and interdisciplinarity. Emphasis is placed on building new collaborations that bring together life scientists and scientists from other disciplines such as physics, mathematics, chemistry, computer science and engineering, including on the development of early career frontier scientists.</p> <p>The Program supports potentially transformative proposals that address important problems at the frontiers of the life sciences, or barriers to progress in the life sciences. Projects should challenge existing paradigms by using novel approaches and techniques.</p> <p>Applications for high-risk/high-reward projects are particularly encouraged. Research projects may range from biological functions at the molecular and cellular level up to the biological systems level, including cognitive functions. All levels of analysis are supported: for example studies on genes and individual molecules, intracellular networks, intercellular associations in tissues and organs, and networks underlying the complex functions of entire organisms, populations, or ecosystems.</p> <p>3-year postdoctoral fellowships to enable the most talented early career scientists, trained in the life sciences or</p>	<p>https://www.hfsp.org/funding/hfsp-funding/postdoctoral-fellowships</p>

	<p>in the physical sciences, to extend their scientific repertoire in laboratories in another country</p> <p>Next application for 2021. Applicants must either come from one of the member countries or wishing to stay in one of the member countries.</p>	
<p>Minerva Stiftung Minerva Fellowship Program</p>	<p>Minerva Fellowships and the Minerva Short-Term Research Grants enable Israeli and German scientists and researchers to complete a research residency at institutions in the respective other country lasting from one week to thirty-six months. Younger scientists and researchers (graduates and post docs) are given preferential treatment in the selection process.</p> <p>losing date for applications for Minerva Fellowships is January 15 and June 15. The closing date for applications for Minerva Short-Term Research Grants is noted on the site Short-Term Research Grants.</p>	<p>https://www.minerva.mpg.de/fellowships/</p>
<p>The Wingate Foundation – Medical Research Travel Grants</p>	<p>For lab visits – travel and subsistence expenses up to 1000.- pounds</p> <p>Deadline: The Trustees normally meet 3-4 times a year. The deadline for submitting an application to the next meeting is:</p> <p>WEDNESDAY 21 AUGUST 2019</p>	<p>http://www.wingatefoundation.org.uk http://www.wingatefoundation.org.uk/sc_medical_research_travel_grants.php</p>
<p>Lundbeck Foundation – Lundbeckfonden Postdoctoral Fellowships</p>	<p>The Lundbeck Foundation awards Postdoctoral fellowships for free and independent biomedical, clinical and health sciences research of the highest standard.</p> <p>The term ‘biomedical and health science’ is used here in its broadest sense, since there are many adjacent fields of research which, traditionally, belong to other classical faculties (particularly natural science and technical science) but, to an increasing extent, help steer the field of biomedicine towards new breakthroughs in knowledge and treatment. Consequently, research in technical and natural sciences with subject matter that addresses biomedical and health issues is treated as biomedical and health science research.</p> <p>The Foundation encourages and supports international collaboration between researchers through the sharing of experience and ideas and therefore prioritises support for postdocs who wish to spend part or most of their time in international research groups.</p> <p>You can apply for grants for two to three years.</p> <p>Deadline 6 November 1 pm 2019</p>	<p>https://www.lundbeckfonden.com/en/grants/what-you-can-apply-for/</p>
<p>International Centre for Genetic Engineering and Biotechnology - ICGEB Arturo Falaschi Fellowship Programmes</p>	<p>Various Fellowships for PhD, post-doctoral and many more.</p> <p>Applicants must come from a ICGEB member state</p>	<p>https://www.icgeb.org/activities/fellowship/</p>
<p>International Centre for Genetic Engineering and Biotechnology – ICGEB Research Grants</p>	<p>Applicants must come from a ICGEB member state</p> <p>support for max of 36 months</p> <p>Deadline: April 30.</p>	<p>https://www.icgeb.org/activities/grants/</p>
<p>International Society for Biocuration - International Society for Biocuration Exchange Fellowship</p>	<p>hort-term fellowship to promote collaborations and exchanges between groups working in the field of biocuration.</p> <p>The fellowship will fund the visit of a biocurator to another laboratory or</p>	<p>https://www.biocuration.org/community/fellowships/</p>

	<p>organization with long experience in biocuration. This visit constitutes a unique opportunity to learn new methods, experience biocuration in different settings and/or in different fields, and to establish mutually beneficial collaborations across groups and disciplines. Applications are also welcome from persons not already involved in biocuration to learn biocuration from a laboratory or organization performing biocuration. Up to CHF 2.000.- Application: any time</p>	
<p>Guarantors of Brain - Post Doctoral & Brain Entry Fellowships</p>	<p>The Guarantors of Brain offer several types of Brain fellowships between 12 and 36 months. Applications for 2019, February 1 – March 20.</p>	<p>https://guarantorsofbrain.org/grants/post-doc-brain-entry-fellowships/</p>
<p>Galton Institute - Postdoctoral Travel Grant</p>	<p>The travel grant (one per year) will be available to outstanding postdoctoral researchers, normally within 6 years of receiving a doctoral degree, working in the field of genetics. The fellowship aims to support visits to carry out research into aspects of human inheritance in laboratories abroad 'to enrich the research experience and help develop the scientific career of the Fellow'. Requests for up to 6 months will be considered if well justified. Applications will also be considered for attendance at advanced, intensive, high quality laboratory-based courses, e.g.: at Cold Spring Harbor, Woods Hole and similar centres. Funding will be up to £6,000. After the grant the person must return to UK lab.</p>	<p>http://www.galtoninstitute.org.uk/grants/galton-institute-postdoctoral-travel-grant/</p>
