

Human Brain Project

EBRAINS

HBP CEols for SGA3 opening soon!

Marie-Luise Neitz

CEols for SGA3 (1/2)

CEol for WP1: Brain Atlas and simulation engine adapter construction

- CEol for experts in computer engineering and software development interested in contributing to the building of one of the largest computational infrastructures in Europe dedicated to neuroscience.
- Budget: EUR 450,000 Direct Costs. One proposal will be selected.

CEol for WP3: Application of functional architectures supporting advanced cognitive functions to address AI and automation problems of industrial and commercial relevance

- CEol for organisations interested in the application of functional cognitive architectures to address AI and automation problems of industrial and commercial relevance, with special emphasis on vision.
- Budget: EUR 1,000,000 Direct Costs. Maximum funding per proposal: EUR 500,000. Two proposals will be selected.

CEol for SGA3 (2/2)

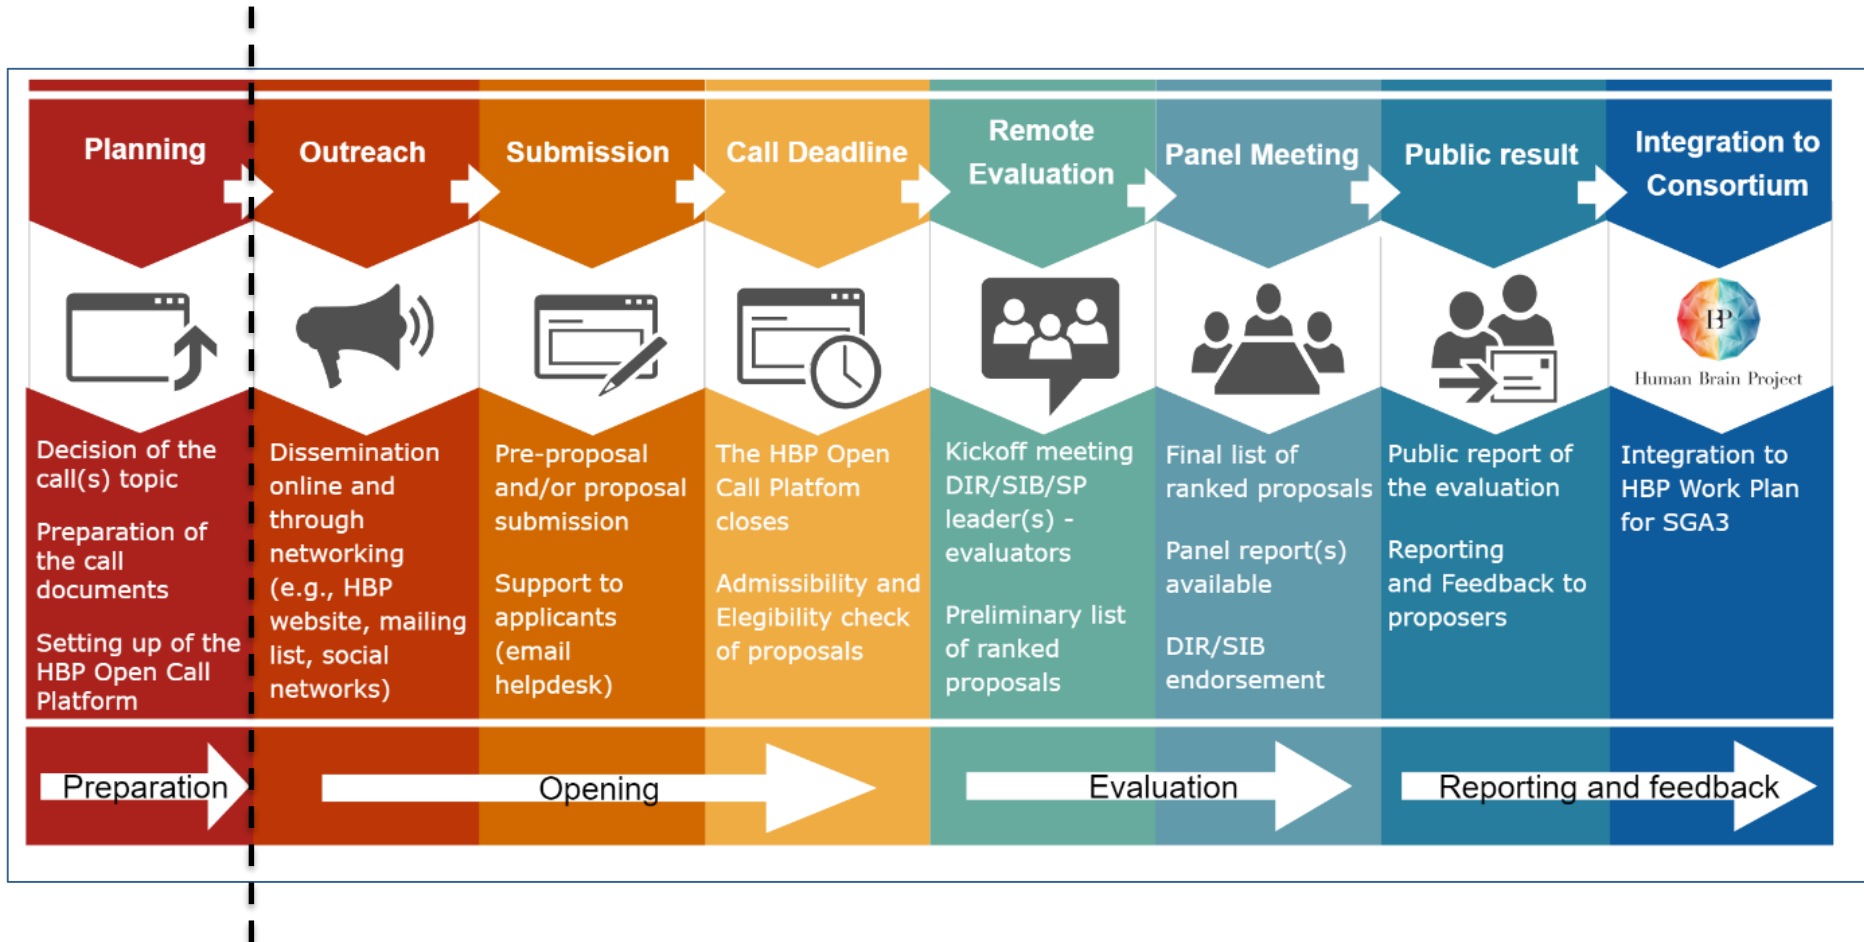

CEol for WP3: High-level neuro-symbolic processing for guidance of goal-directed behaviour

- CEol for cognitive neuroscientists, researchers in learning theory, Artificial Intelligence, and neurorobotics interested in developing neural network models of working memory and selective attention for temporary information processing and guidance of goal-directed behaviour.
- Budget: EUR 450,000 Direct Costs. One proposal will be selected.

CEol for WP4: Industry Engagement

- CEol for companies, most notably SMEs and technology-based start-ups, operating in the field of digital neurosciences interested in the development of tools and services for the shared EBRAINS digital brain Research Infrastructure (RI).
- Budget: EUR 1,000,000 Direct Costs. Maximum funding per proposal: EUR 250,000. Four proposals will be selected.

Current Status

Four Calls for Expression of Interest (CEoIs) will be opened soon!

Becoming an HBP partner

Apply to a HBP Call for Expression of Interest (CEoI) and contribute to the aim of the HBP!

Preparation

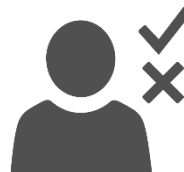

Check the Call documents available on the [HBP Open Call Platform](#)

Submission

Submit a pre-proposal to ensure matching to the Call topic,
Submit a proposal

Evaluation

Your proposal is reviewed by external expert evaluators

Integration

Your proposal has been successful.
Congratulations, you are now a new HBP partner!

For more information please contact:
info@opencalls.humanbrainproject.eu

Becoming an HBP evaluator

If you have a high expertise level in the relevant field and are available for occasional, short-term assignments, then become an HBP evaluator!

Remote Evaluation

Individually review the remotely assigned proposals (via the HBP Open Calls Platform) and reach a consensus.

Panel Meeting

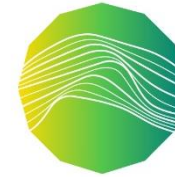

Participate in the Panel meeting to decide the final funding recommendation

For more information please contact:
info@opencalls.humanbrainproject.eu
