

2017 HBP SUMMIT

OPEN DAY

17 October 2017 Glasgow, UK

Human Brain Project

Co-funded by
the European Union

2017 HBP SUMMIT

OPEN DAY

17 October 2017 Glasgow, UK

**Come and join us at the 2nd HBP Open Day
on 17 October, Glasgow, UK!**

Join us at the interactive HBP Science Market to learn first-hand what the HBP is all about. Early-career scientists, high-school students, and members of the public will have the unique opportunity to engage directly with HBP researchers. Come and gain insights into the future of neuroscience, medicine, and computing through a series of engaging lectures and interactive sessions. The HBP Education Programme will also be on hand to answer your questions about how to take part in HBP schools and workshops.

For more information visit HBP website:

The Human Brain Project, one of the largest scientific projects ever funded by the EU, is building a research infrastructure to advance neuroscience, medicine and computing. The 10-year Project began in 2013 and employs ~500 scientists at more than 100 European universities. The infrastructure comprises six ICT Platforms. The HBP also undertakes research and theoretical studies in brain structure and function in humans and other species, and studies the ethical and societal implications of its work.
