

Your guidance for maximum safety.

- Change the PIN code immediately after receiving the card in the **Swiss Bankers app** or at the ATM in Switzerland or Liechtenstein.
- Sign your card immediately on the back.
- Install the Swiss Bankers app. Once you have added your card, you can activate (red) or deactivate (grey) the following security options individually for each card under «Card settings & PIN code»:

Complete blocking of the card – no more transactions are possible

Card blocking for local purchases in over 250 countries – can be set individually (does not apply to Internet purchases)

Blocking of the card for internet purchases (worldwide)

Blocking of the card for online betting and gambling

Blocking the card for contactless payments

- Mastercard® Identity Check™ for secure online payment is automatically activated in the app.
- If you are unable to use the app, please register on our customer portal at <https://my.swissbankers.ch/login>, for your own protection, so that we can contact you by e-mail or telephone if necessary.

Further safety instructions.

- Always keep the card and PIN separate and keep the PIN secret.
- Store your card as carefully as you would cash. If you only use the card occasionally, deactivate it in the app or by calling our customer service.
- Check your card account monthly via the app or customer portal and contact our customer service immediately if there are any discrepancies.
- If you lose your card, block it immediately in the Swiss Bankers App and inform our Customer Service on **+41 31 710 12 15** and dial 5. Outside opening hours, please send us an e-mail to info@swissbankers.li

By acquiring, accepting or using the card, you accept the general terms and conditions. The current terms and conditions and data privacy provisions can be found on our website [swissbankers.li/legal](https://www.swissbankers.li/legal)

Now use all advantages of the Swiss Bankers App
